## Experience

**COMPANY:** RapidDeploy  
**DATE:** January 2018 - Current  
**POSITION:** Junior Android Developer  
**DESCRIPTION:** Responsible for adding new features, fixing bugs and writing tests for the company's native Android app.

**COMPANY:** HyperionDev  
**DATE:** November 2017 – January 2018  
**POSITION:** Software Development Intern  
**DESCRIPTION:** Developed a MVP Android app for a startup called [Mtabe](#). I was also involved in content creation for the company's blog, and the mentoring of software development students.

**COMPANY:** CPUT  
**DATE:** March 2011 – October 2017  
**POSITION:** IT Assistant/Technician  
**DESCRIPTION:** Provided desktop support to students and lecturers. I was very flexible in this position, working at 2 different locations and while everyone was home during the student's protests, I was still working every day

**COMPANY:** **Simply Colossal**  
**DATE:** June 2009 – December 2009  
**POSITION:** Intern Web Developer  
**DESCRIPTION:** Involved in the development of websites using HTML, PHP, MySQL and Joomla. Created an online tool that generated marketing strategies based on the answers received in a questionnaire. I worked on this project alone and my boss was very happy with the outcome
